

RFS® Tools

For Quick and Easy Installation

Manual Combination Prep Tool

Unlike other tools offered in the industry, this unique prep tool completely prepares foam-dielectric coaxial cable for connector attachment.

The combination chamfer and flare station eliminates the need for individual tools for jacket trimming, deburring and proper flaring.

Each tool contains two preset cutting blades designed to efficiently trim the cable jacket, outer conductor and foam dielectric for proper connector installation.

Cable Size/Type	Model Number	Spare Blades
1/2" SCF	TRIM-12-S-06	TRIM-B09
1/2" LCF	TRIM-12-L	TRIM-B09
5/8" LCF	TRIM-58-L	TRIM-B09
7/8" LCF RAPID FIT™	TRIM-78-L	TRIM-B09
7/8" LCF OMNI FIT™	TRIM-78-LF	TRIM-B09

Auto Cable Prep Tool

Attach the tool to your drill and, in one quick step, strip the outer jacket, outer conductor and foam insulation then cut and chamfer the inner conductor to the correct dimensions for quick, consistent and reliable connector attachment.
