

**Course Name:** Authorized Climber

**Course Overview:** The Authorized Climber program is designed to prepare individuals with little or no experience to be able to safely climb and work on various types and sizes of towers. This course combines the cognitive and the psychomotor domains of training, which assures that the student will develop the knowledge base necessary to safely climb and work on towers, as well as the practical skill sets necessary to be able to safely perform his or her duty.

**Course Length:** One Day

**Who should Attend:**

- Field Technicians
- All employees expected to climb a tower

**You will Learn:**

- To demonstrate proper knowledge, understanding, and application of the equipment used.
- The safe practices to be employed at all time while working on the tower.

**Prerequisites:** None

**Customizable Course:** No

**Course Content:**

- Regulatory safety standards
- Equipment commonly used
- Engineering controls
- Work practice controls
- Return demonstrations
