Course Name: OSHA 10 Hour Construction Outreach Training Course - 2008 Version with Study Guide

Course Overview: This course is designed for construction workers, foremen, job supervisors, and anyone involved in the construction industry. OSHA recommends Outreach Training Program courses as an orientation to occupational safety and health for workers covered by OSHA 29 CFR 1926. Workers must receive additional training, when required by OSHA standards, on the specific hazards of the job. Upon successful completion of the course, participants will receive an OSHA 10-Hour Construction Outreach DOL course completion card within 4-6 weeks.

NEW! OSHA 10-Hour Construction Outreach Study Guide! This new 75 page Study Guide will ensure you are ready to take the final exam to receive your OSHA DOL Card. The Study Guide will assist you throughout the online course and can also be used as a future reference manual.

Course Length: Once you enroll in the OSHA 10 Hour Construction Outreach Training course you will have 6 months to successfully complete the course. If you do not complete the course in 6 months you will not receive a certificate for course completion.

Course Pre-Requisite: None

Learning Outcomes:
- State the purpose of the OSH Act and list the functions of OSHA
- List the OSHA inspection priorities and describe the inspection process
- Describe the rights and responsibilities of employers and employees under the OSHA Act
- The basic requirements for proper aisle and passageway maintenance
- Guidelines for identification and protection of floor opening
- To understand the importance of effective egress fire protection program

Testing: All module quizzes require a score of 70 to proceed forward in the course. The final exam also requires a minimum score of 70 to receive a certificate of completion. The final exam may be taken three times if necessary.
